Dear NAET Practitioners,

We have been receiving many inquiries about NAET and its effectiveness on Anaphylactic Reactions. We know we can treat such reactions very effectively. But no one believes you if you just say it. It is time to show people some proof.

What can we do about it?

We can put all pertained information about Anaphylaxis and reports in our journal, "The Journal of NAET Energetics and Complementary Medicine". Probably people would believe more if they can read about it somewhere. I would like to dedicate the next issue of journal (JNECM) that comes out before the symposium) to Anaphylactic reactions and how NAET can treat Anaphylaxis successfully, etc.

What do I need from You?

I would like to collect as many case reports as possible on the subject, if it is possible with before after laboratory reports, etc. I would also like to receive as many patients' or doctors' testimonials on anaphylaxis and NAET treatments. Can you help me in this area? I know you all have been treating anaphylactic reactions to nuts, eggs, milk, fish, latex, bee stings, hair dyes, etc. Because you have shared such information with me at the seminars. So now is the time you can share them with the WORLD. Please send me all pertained information you can provide on Anaphylaxis and the result of your treatments either via emails or regular mail as soon as you can.

Email to: d5lam@yahoo.com
or naet@earthlink.net

Or please send them to:

NAET PAIN Clinic
6714 Beach Blvd.,
Buena Park, CA 90621.
Fax: 714-523-3068

I greatly value and appreciate your support.

Thank You!

Devi S. Nambudripad
